NO ENERGY WASTE

Dawnice

Yichun Dawnice Manufacture and Trade Co ., Ltd

BESS and EV Charger power station, including residential & commercial energy storage battery

COMPANY PROFILE

Yichun Dawnice Manufacture and Trade Co., Ltd. was established in 2021, with a team of 14 years of experience in lithium battery R&D and production. The production line is located in Yichun City, Jiangxi province, the "lithium capital" of Asia.

Dawnice is a young lithium battery brand that has grown very fast. After three years of development, Dawnice has become a well-known new energy enterprise in China.we have cooperated with more than 3000 clients including more than 18 distributors from all over the world.

2GWh Annual production capacity.
Customers cover 150 countries.
Sales and after-sales service sites have been established in Europe, America,Middle east, Africa

Main Business

BESS and EV Charger power station, including residential & commercial energy storage battery

Our Team

Mission: To Strive Forward No Energy Waste

Vision: To Be the World Widest Energy Storage Service Provider

Value: Action, Innovation, To be the Best, Win-win.

Slogan: Trusty , Efficiency , Responsibility and Reliability.

Qualification Certificates

Our battery has the certification recognized by main countries: Rohs,CE, UL, UN38.3,etc.

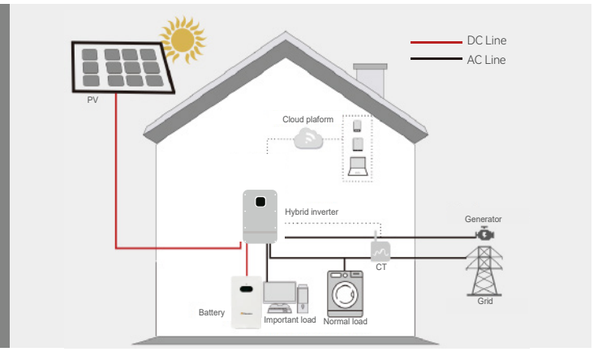
Advantages

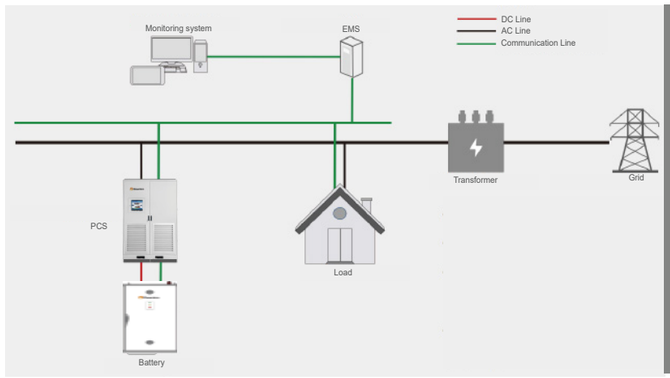
- 8000+ Cycle life
- 15years Design life
- High security
- Free replacement
- One-station style service
- High efficiency
- Free and green recycling
- Full cycle life traceability
- Super Intelligence

Residential solution

Residential BESS solution

- Provide power suuply for residential application
- Compatible with high and low voltage inverters
- Smart remote monitoring energy management system via app
- Compatible with grid power dispatching instructions





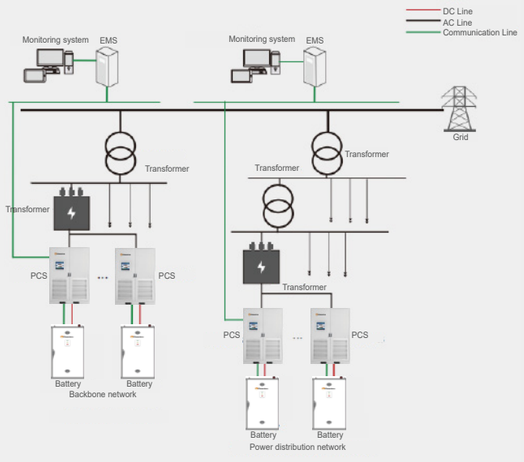
C&I ESS solution

- Power expanding due to transformer limitation
- Reactive power compensation and APF function
- Built-in transformer, high load tolerance and high reliability
- Adaptable for all kinds of grid instructions such as peak shaving.
- Integrated energy efficiency management

Grid-side energy storage solution

Grid-side energy storage solution

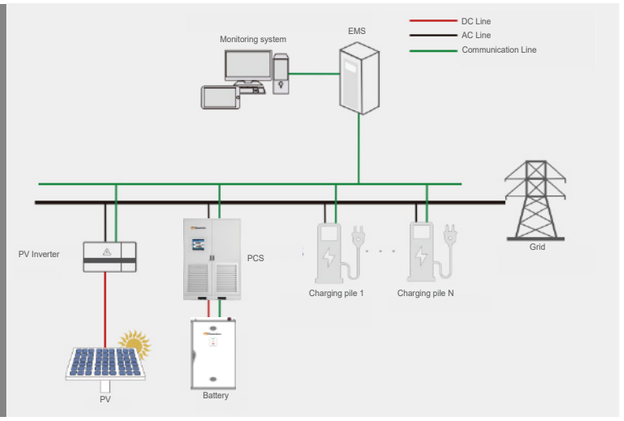
- Peak shaving and other grid instructions
- Independent participation in grid power services
- Secondary frequency modulation AVC, rotary standby , cold standby,black start



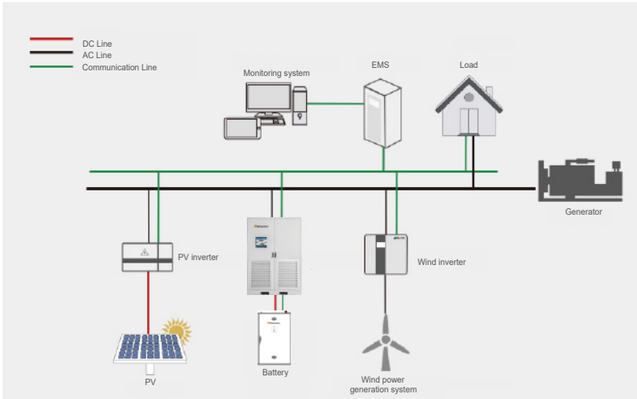
PV charging station solution

AC-BUS solution

- Integrated container solution of PV, energy storage and battery can be realized
- Large access power range and flexible design
- Can be used for power supply in areas without electricity, integrated application of PV& storage and charging, electricity trade in industrial parks,large charging stations and other micro-grid applications
- ESS peak shaving, reduce power grid distribution capacity, solve the problem of power distribution expansion



Micro-grid solution



Large micro-grid off-grid solution

- High power (above MW level) independent microgrid, AC bus topology to reduce the input source coupling, improve reliability
- The system operates under off-grid mode, with energy storage systems or diesel generators providing voltage and frequency support for the entire micro grid
- EMS analyzes and predicts PV,wind power and load to realize safe, reliable and economic operation of microgrid system

Medium micro-grid solution

- Master/slave control function,all machines work in V/F mode
- Redundancy,the failure of one or more machiens does not affect the normal operation of other machines
- Current balance control, current unbalance <5%
- SOC equalization control to protect the batteries

COMMERCIAL AND INDUSTRIAL ENERGY STORAGE

HZEB-HCT-200

200 kWh DC Side

HZEB-ESS100P-200

100kW/200kWh All in one AC couple

HZEB-ESS100-200

100kW/200kWh Micro grid

HZEB-HCT-200

200 kWh DC Side

Features and Advantages

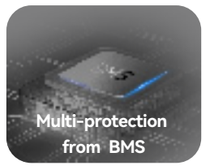
Long Life: Cycle life ≥ 6000

High Efficiency: Battery 95%, system 90%

Easy Mantaince: Self diagnosis and fault location

Quadruple protection for higher safety and reliability

One-button start, automatic operating, and it supports multiple parallel connections.



High security

Stable operation

Intelligent temperature control

Automatic fire fighting system

Application

SPECIFICATION

Battery cell	
Rated Voltage	3.2V
Capacity	280Ah
Batty Pack (1P16S)	
LiFePO4 Battery Pack	HZEB-HCT-15
Rated Voltage	51.2V
Nominal Capacity	280Ah
Pack Energy	14.336kWh
Weight	130KGS
Battery System (1P224S)	
Rated Voltage	716.8V
Nominal Capacity	280Ah
Rated Current	140A
Battery Energy	200.7kWh
Voltage Range	627.2-806.4V
Connecting Way	1P224S /1 cluster
Max Efficiency	≥95%
Cooling	Air cooling
Optimal Working Temperature Range	-10℃~55℃ under -10℃ or above 45℃,power derating
IP Grade	IP54
Dimension	2335*1250*1413mm
Weight	2500KGS
Certificates	UN38.3,MSDS,IEC62619(CB),CE-EMC

HZEB-ESS100P-200

100kW/200kWh All in one AC couple

Features and Advantages

HIGH INTEGRATION

- Highly integrated ESS with outdoor cabinet design provides high protection class
- Advanced integration technology ensures opyional system performance and lower cost

EFFICIENT AND FLEXIBLE

- Control ensures longer battery cycle life and easy for system expansion
- Modular design support max 10 sets to parallel connection

SAFE AND RELIABLE

- DC electric circuit safety management includes fast breaking and anti-arcprotection
- Multi-state monitoring and linkage actions battery system ensures safety

SMART AND ROBUST

- Fast state monitoring and faults record enables pre-alarm and faults location
- Integrated battery performance monitoring and logging

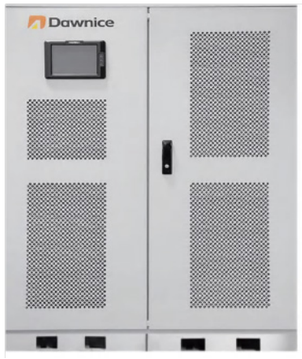
Application

SPECIFICATION

DC side	
Full load voltage range (V)	615~950 (3W+PE) /680~950 (3W+N+PE)
Maximum current	140A
AC side	
Rated voltage	230/400V
voltage deviation	-10%~+15%
AC output type	(3W+PE) / (3W+N+PE)
Rated output power (kW)	100kW
Maximum output power (kW)	116kW
Maximum current(A)	167A
Rated grid frequency (Hz)	50/60Hz
Power Factor	0.99
Power factor range	1 (Lead) ~1(lag)
Current distortion rate	<3% (Rated Power)
Overload capacity	110% Long term
Maximum discharge efficiency	98.50%
System parameters	
Working Altitude (m)	2000m (above 2000m derating power)
Operating temperature	-10℃~55℃ under -10℃ or above 45℃,power derating
Communication Interface	CAN/RS485
Standards compliant	GB/T 34120-2017, GB/T 34133-2017, EN 62477 ,EN IEC 61000 ,EN50549-1
Grid support	L/HVRT, active and reactive power control
Battery System (1P224S)	
Rated Voltage	716.8V
Nominal Capscity	280Ah
Rated Ourrent	140A
Battery Energy	200.7kWh
Voltage Range	627.2-806.4V
Connecting Way	1P224S / 1cluster
Max Efficiency	90%
Cooling	Air Cooling
Optimal Working Temperature Range	-10℃~55℃
IP Grade	IP54
Dimension	2185*1500*1330mm
Weight	2450KGS
Certifications	UN38.3,MSDS,IEC62619(CB),CE-EMC
Warranty	10 years

HZEB-ESS100-200

100kW/200kWh Micro grid



Features and Advantages

- Long Life: Cycle life ≥ 6000
- Integrated: All in one design
- High efficiency: Battery 94%, system above 87%
- Multi brance: Support load, battery and PV
- Easy mantaince: Self diagnosis and fault location
- Easy management: Ready to work, auto switch on grid/off grid mode

Application

SPECIFICATION

PV Parameters		
MPPT voltage range	DC250V ~ DC850V	
MPPT full power Volt range	DC450V ~ DC850V	
MPPT Quantity	2-4（Optional）	
	AC grid connected parameters	**AC off-grid parameters**
